

American Ash Spec Sheet EZTMouldings

AMERICAN ASH

High-quality UK-grown American Ash precision machined for trade, construction, and restoration projects.

PRODUCT OVERVIEW

American Ash is a strong, versatile hardwood known for its light appearance, straight grain, and excellent machining properties. Combining durability with a clean contemporary finish, it is widely used across interior joinery, mouldings, and architectural applications.

At EZT Mouldings, our American Ash is precision machined using advanced production equipment to deliver exceptional consistency, accuracy, and finish quality.

Suitable for both standard and bespoke mouldings, American Ash performs exceptionally well across residential, commercial, and restoration projects.

American Ash timber is mainly used for interior furniture and joinery, particularly where bending strength is required.

Name: Fraxinus Spp

Origin: North America

Colour: Grey
